Mr. John Smith

Tri-State Contracting solutions have for 25 years providing top-notch services for customers in the area of renovation, interior demolition, lead removal, and mold removal and remediation.

This guide is designed to show you what each of the various jobs we carry out entails and what you should do when you experience any need associated with the various services herein. You can also see from here what tristate contracting solutions Inc does to handle any of these problems that may arise.

What tristate contracting solutions Inc can do for you?

With our certification, we have the right qualification from the EPA to renovate buildings and apartments in the pre-1978 group. This certification is important if a professional is to perform tasks which could disturb lead-based paints and expose humans to it. The EPA also has a list of certified renovators in the EPA program website. This information shows you professionals who have experienced enough to carry out the tasks you require. We endeavor to make good use of lead-safe work practices as we carry out our activities You must make use of professionals who can contain lead pollution instead of trying to do it yourself without experience.
